LIST A DESCRIPTION OF THE IMPROVEMENT TO BE DONE (POLE MOVE, GRAIN DRYING, INCREASE AMP SERVICE, ETC.)

The Cooperative will construct, own and maintain all electrical equipment up to the meter location in accordance with the following requirements:

1. Pre-Engineering Fee: A nonrefundable fee of Fifty-three dollars (\$53.50) (includes sales tax) shall be paid by the Applicant and must accompany this agreement. Re-application and fee are necessary if the Applicant does not proceed with the project within one year.
2. Monthly Minimum Charge: The Applicant shall guarantee payment of the minimum monthly charge, as established in the applicable retail rate, for a period of sixty (60) consecutive months. The cooperative may require this minimum payment be paid in advance if it believes circumstances are such that the service may not remain on a continuing basis or have limited electrical usage.
3. Line Extension: A line extension charge may be required due to distance, significant investment, and risk the Cooperative makes for line extensions. The line extension charge shall be paid by the Applicant prior to the start of construction.
4. Right-of-way Clearance: The Applicant shall provide and pay the cost for the initial right-of-way clearing for the line extension done in accordance with the Cooperative specifications.
5. Construction of Service: The line extension shall be scheduled for construction after the following is completed:
 - A. All necessary payments and documents have been received by Cooperative.
 - B. Right-of-way clearing completed and accepted by Cooperative.
6. Billing: Starts upon availability of the electric service.

By signing this agreement, the Applicant accepts its provisions. Signatures of the Applicant should include both husband and wife for a joint account, all partners in a partnership, and majority of officers in a corporation. All partners or officers of applicant agree to be individually responsible for this agreement.
