

Can you
Wait 'til 8
to dry your
clothes?

Efficiency Tips

- ▶ Dry towels and heavier cottons in a separate load from lighter-weight clothes.
- ▶ Dry two or more loads in a row, taking advantage of the heat still in the dryer from the first load.
- ▶ Clean the dryer filter after each use. A clogged filter will restrict flow and reduce dryer performance.
- ▶ Dry full loads, but be careful not to overfill the dryer. Drying small loads wastes energy.
 - ▶ Don't add wet items to a load that is already partially dried.
 - ▶ Use the cool-down cycle to allow the clothes to finish drying with the residual heat in the dryer.
